## ASSETS MANAGEMENT

Wade Clayton, Manager of Assets

Manages the Annual Inventory Program, including the STAR Program (Scanning Targeted Auditable Resources) allows targeted departments or colleges to scan their capital assets and attractive property. Performs the annual inventory of capital assets and attractive property for the Health Center and IFAS departments that do not inventory their own assets.

2

## UF BUSINESS AFFAIRS TECHNICAL SERVICES HAS DEVELOPED AN IPHONE/APPLE PRODUCT INVENTORY APP FOR SCANNING UF PROPERTY INVENTORY

- The iPhones/apple product are much cheaper than scanners original used by Assets Management
- iPhones have the potential to help property contacts manage their property while in the field and away from their desks
- It can be downloaded on many different types of Apple devices including iPhone, iPads, and iPods (recommend iPhone 6s or later because of the camera quality)
- In order to download and use the myInventory app, the user must have the myAssets role and complete the required training course PST501 Property 101, training and development, myTraining
