USING DISPOSITION CODES

Disposition codes are short, pre-defined explanations of why an applicant did not make it to the next step of the hiring process. Disposition codes help track and document committee decisions regarding each applicant, providing responsible documentation of the hiring process and mitigating liability by keeping a record of the stated reasons why each individual job applicant was removed from consideration.

DISPOSITION CODES VERSUS APPLICATION STATUSES

Disposition codes are meant to work in conjunction with application statuses rather than replace them outright.

Application statuses indicate where a given applicant is in the committee’s process of consideration (e.g., Long List, Short List).

Disposition codes, on the other hand, document why a given applicant did not move any further in the process. In many situations, these fields will be included in reports at the end of a search. Using disposition codes for each applicant will help UF in meeting requirements for compliance reporting at the completion of its search process.
