

This guide is to help Shoppers and Requestors use contracts in myUF Market. To use a contract, search by keyword, contract name or number, at the top in the Search field. Follow the ordering instructions in the contract and identify the vendor associated with the contract. This vendor must be in the cart in order to associate the cart with the contract. Requisitions with contracts help maximize negotiated pricing and value, do not need multiple quotes, and do not route to the Buyer workflow step, because the purchasing requirements are already covered in the contract. Use this guide to search for contracts, identify the associated vendor, and use the ordering instructions.

To access myUF Market, log on through the myUFLPortal.

### **Step 1 – Search for a Contract by Keyword in Shop at the Top in myUF Market**

### **Step 2 – Locate the Contract in the Results**

The result will display the **Contract Number** and the supplier(s) associated with the contract. For example, to use Fisher Scientific contract, select this supplier when creating a cart, so that myUF Market automatically adds the contract to the cart. Click the **More Info** button on the right to read the ordering instructions.

**Step 3 – Read and Follow the Ordering Instructions**

The ordering instructions include ordering tips, resources, when to call the supplier and links to get started shopping, such as for the related supplier’s punchout or a form.
