Managing OPT Presentations

The presentations application is used to create and maintain a history of your scholarly presentations. Once entered, these references will be automatically auto-populated in your Promotion and Tenure template.

You can enter the presentations references yourself or assign a designee editor to enter them on your behalf. (To assign a designee editor, navigate to Main Menu > Self Service > UF Faculty Promotion & Tenure, click Add/Update a Designee Editor and enter the UFID of your designee editor [an 8-digit number]).

This instruction guide describes how to add, edit, view and delete Packet presentations within the OPT module in myUFL. Select the desired process from the links below.
