SERVICE INDICATORS: VIEW FROM THE STUDENT SERVICES CENTER

- Use service indicators to provide or limit access to services at your institution for an individual. Service indicators can be holds to prevent an individual from receiving certain services, or positive indicators to designate special services to be provided.
- Service indicators consist of one or more impact values that identify the types of specific services that are restricted or provided.
- This document contains instructions on how to view service indicators from the Student Services Center.
- **NOTE:** The Start Term is the appropriate way to assign a hold. The start date is not required because the field automatically defaults to the start of the term.

4. If you want to edit the hold or release it, click on the service indicator title in the “Details” column.
   - A positive service indicator will have a red star next in the “Type” column. Positive holds do not block students from services.
   - A negative service indicator will have a red no-sign in the “Type” column. Negative service indicators do block students from services.

5. If you want to release the service indicator, click Release.
6. If you are releasing the service indicator, you will get a confirmation message. Click Ok.

7. Otherwise, scroll to the bottom of the page to view the impacts of the hold. Update the Comments field as needed. If you have made any changes, click Apply.
