Expenditures

\$25.9 million
Physical
Sciences

\$93.6 million
Engineering

The University of Florida has one of the nation's largest and most comprehensive research enterprises, with a record \$865 million in research expenditures in 2018

UF Office of Research professionals assist faculty at every stage of the research process:

- We identify grant opportunities
- We manage proposals and awards
- We assist with regulatory compliance
- We transfer technology to the marketplace

ResearchPORTAL

New to UF? Leaving UF?

Funding Resources

- + UFIRST
- + Find Funding
- + Large Multidisciplinary Proposal Development
- + Proposal Submission

Compliance Resources

- + Animal Care Services (ACS)
- + Animal Research – IACUC
- + Asset & Equipment Management
- + Clinical Research Billing – UF and Shands (UF Health)

Research Program Development

Identifies and shares internal and external funding opportunities; facilitates industry partnerships; and coordinates interdisciplinary research initiatives.

Sobha Jaishankar

- 
- Assist faculty with finding research funding
 - Coordinate Limited Submission Opportunities
 - Support Large Proposal Submissions
 - Coordinate Internal Seed Grant Programs

Sponsored Programs

Facilitates institutional approval for all proposal submissions, accepts and administers grant awards, and negotiates contracts and other research-related agreements.

Lisa Stroud

- Answers questions relating to proposals, budgeting, contract negotiations and award management
- Reviews, approves and submits all proposals to external sponsors
- Negotiates and executes all awards, agreements, modifications and other documents
- Reviews awards for compliance prior to releasing for spending
- Prepares and issues sub-awards to outside parties
- Reviews and approves requests for changes to budget, scope or personnel prior to submission to sponsor

Contracts & Grants

Provides support for award management and fiscal compliance of sponsored programs.

Tiffany Schmidt

- Reviews awards for terms and conditions related to fiscal matters
- Establishes awards in the university's financial systems
- Prepares and submits all financial reports and requests for payment
- Reviews project expenditures and approves rebudgeting requests
- Reviews, reconciles and facilitates payment of subrecipient invoices
- Advises departments on best practices for award management

Operations & Services

Manages animal and human subject committees, various compliance committees, and conflict of interest. Supports facilities, services, education and data.

Michael Mahoney

- Provides administrative support for
 - Institutional Review Board (**IRB**)
 - Animal Care & Use Committee (**IACUC**)
 - Institutional Biosafety Committee (**IBC**)
- Resolves compliance issues related to animals, human subjects, and biological materials

Research Compliance & Global Support

Oversees compliance programs related to export control, research misconduct and international projects.

Marsha Pesch

Research Compliance & Global Support

- Oversees the export control program
- Provides support and guidance for complex international research activities
- Investigates allegations of research misconduct
- Coordinates various compliance units and committees
- Assists with research compliance training

UF INNOVATE

Moves research discoveries from the laboratory to the market through four organizations: Tech Licensing, Ventures, and two business incubators, the Hub and Sid Martin Biotech.

Jim O'Connell

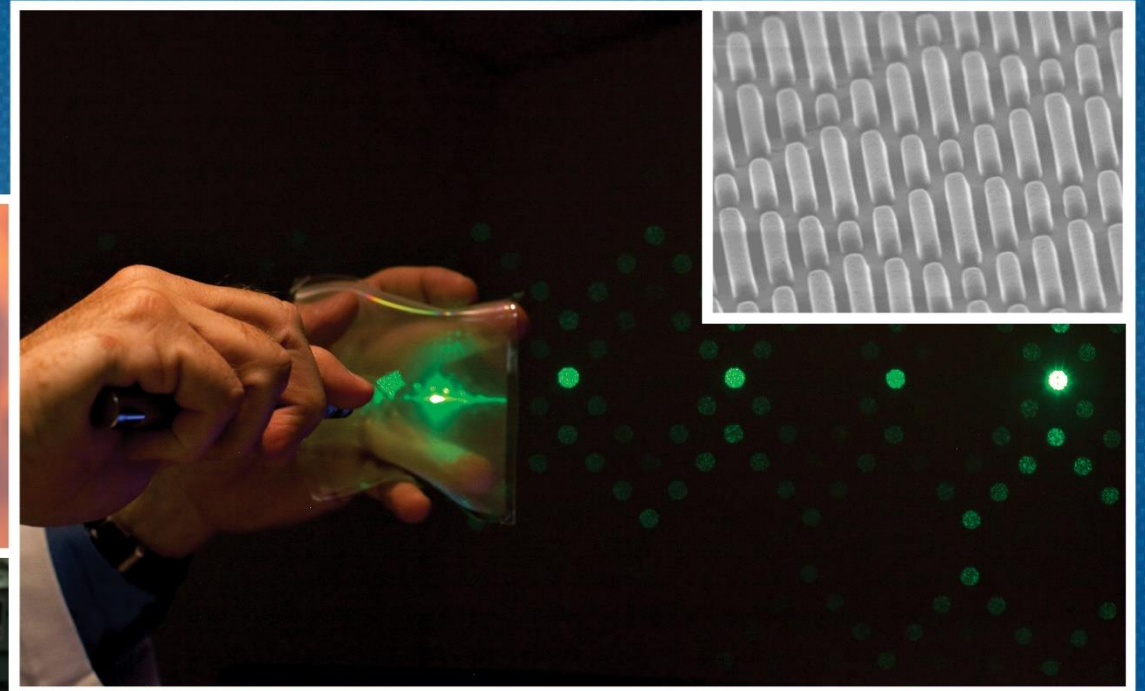

UF INNOVATE

- **Tech Licensing** connects innovators, investors and industry to maximize the potential of UF innovations for the global good
- **Ventures** fuels consistent growth in the number and quality of UF startups
- **Sid Martin Biotech** fosters the development of startups that feed, fuel and heal the world
- **The Hub** builds, drives, and supports the spirit of innovation in its technology startups

Gatorade

Sharklet

Licensing Success Stories

The Office of Research is committed to helping all faculty identify funding, navigate the proposal and awards process, comply with regulations, and transfer suitable technology to the market.

The key to success in this effort is communication, early and often, among principal investigators, their department and college research administrators, and the team in the Office of Research.
