
MANAGING OPT PUBLICATIONS

The publications application is used to create and maintain a history of your publication references. Once entered, these publication references will be automatically auto-populated in your Promotion and Tenure template.

You can enter the publication references yourself or assign a designee editor to enter publications on your behalf. (To assign a designee editor, navigate to Nav Bar > Main Menu > Self Service > UF Faculty Promotion & Tenure, click Add/Update a Designee Editor and enter the UFID of your designee editor (an 8-digit number)).

If your college maintains a database of your publications it may be possible to import that data into OPT via a specially formatted XML file. Contact your College OPT Administrator or the Associate Dean who handles tenure and promotion to learn more.

This instruction guide describes how to add, edit and search/filter Packet publications within the OPT module in myUFL.

NAVIGATION

Login into myUFL and navigate to:
