ITEMIZE EXPENSES

Some expenses require itemizations to separate Parent expense types from the Child. This is primarily used for Lodging expenses as they contain nightly charges for the lodging rate, taxes, and fees. However, the itemization process is the same for any other expense type when the expense includes personal portions or when multiple expense types apply to a single charge.

 LODGING

UF GO prompts the user to itemize the Lodging expense type. If not itemized, an exception alert prevents the user from submitting the expense report.

There are several lodging-related expense types available in UF GO. Below is a brief summary:

• **Lodging**: Option to expense a standard hotel stay
• **Lodging - Group**: Option to expense multiple hotel rooms in a single reservation.
• **Lodging – Deposit/Refund**: Option to expense deposit/refund received from a hotel
• **Lodging – Other Accommodations**: Option to expense other types of lodging such as AirBnB, hostel, etc.
**Steps**

1. Click on **Create New Report** on the **Expense** module
2. Complete the required fields (red asterisk) in the report header
3. Click on **Next**
4. Click on **Add New Expense**
5. Click on the **Create New Expense** tab
6. Search or select the **Lodging** expense type from expense options
7. Click **Add Receipts** to bring in the receipt to the expense line
8. Complete required fields (red asterisk) in the **Details** tab
   - The expense type, amount, check-in date and a check-out date must be completed prior to itemizing this expense
   - Depending on the **Lodging Location**, you may see the currency conversion option. If paid with US dollars, select and it will hide currency conversion options

**Itemizations Tab**

1. Click on the **Itemizations** tab
2. Click **Create Itemization**
3. Select **Lodging** expense type
4. Verify Entry Type is set correctly – **Recurring** or **Single itemization**
   - The check-in and check-out dates and amount of hotel nights auto-populate from the **Details** tab
5. Select **The Same Every Night** or **Not the Same** to determine the room rate and taxes fields
   - If selection is **Not the Same** additional fields will appear
6. Enter the room rate(s) and tax(es)
7. Click the **Save Itemization** button
8. Enter other expense types that are included on the expense total
   - Example: parking, internet
   - The system will let you know if there is a remaining amount that has not been accounted of the total expense amount
9. Continue itemizing until the **Remaining** amount is zero (0)
   - If there is a remaining balance due to currency and/or bank fees, use the **Currency/Bank Fees** expense type to itemize
10. Click **Save Itemization**
**DISPLAY OF ITEMIZED EXPENSES**

Expenses that are itemized will display the Parent as the expense and the Child as a dropdown list below it.
