# IDENTIFY VOUCHERS IN ERROR BY UNIT (FIRST 4 OF DEPT ID)

Department fiscal administrators should regularly check for vouchers in error and ensure they are made valid as soon as possible. A voucher in error will not process payment to employees/travelers, nor will the PCard and Air Card transactions get posted to the General Ledger and reflect in Commitment Control (kk) (i.e. budget overview, myInvestigator, Enterprise Analytics reports).

**How are vouchers created?** When Expense Reports reach the status of "Approved" in UF GO, a nightly process creates vouchers in myUFL for all reports approved on a given day. Vouchers that are "valid" will post to the General Ledger and payments will be issued to anyone receiving a reimbursement. Vouchers that have "errors" must be corrected before the voucher will post and pay out.
